

Need Continuing Education Hours?

Register today for the Paramedic Refresher!

Pelham Training Paramedic Refresher Course:

The Paramedic Refresher is a **48 hour continuing education** course held over five days. Topics will include lifting and moving, kinematics of trauma, pharmacology, cardiac management, shock and electrolytes, chest and abdomen trauma, head and spinal trauma, toxicology, neurological emergencies, environmental emergencies, obstetrical emergencies, pediatrics and geriatrics, documentation, ABG interpretation, CPAP, legal trends, new equipment and technologies. No two courses are the same—we bring in dynamic instructors to provide you with the most up to date information in the field.

These are not your ordinary go over the mandatory materials once again refresher courses. You will review the entire subject areas covered in the national standard curricula, but in innovative and interesting ways. We hope not only to refresh, but to inform, to renew, inspire, and update you on the latest trends and advances in emergency medical care.

February 11 - 15, 2008

Location: Bloomington, Indiana
